Mehndi, otherwise known as henna, is a paste associated with positive spirits and good luck. This competition was organized to seek and develop the traditional values among them. Students enthusiastically participated in the competition. They displayed their artistic designs through an array of mehendi on their hands. Some were old and common but some designs were unique and trendy. The aim of this competition was not merely to see the drawing skills of the students but also the creativity of the students and their way of representation which will in turn improve the overall personality of student. Students created beautiful designs in different themes. Mehendi reflects the rich Indian culture bringing together the knowledge of medicinal herbs with many lovely sentiments and beliefs. It is said that the deeper colour of the Mehendi on the hands symbolises the profound love. In some communities, the darkness of the Mehendi indicates the strength of the relationship.
